## Welcome to Carberry

Carberry has been voted as one of the friendliest towns in Canada and for good reason. It has a small town feeling with friendly, supportive people and all the amenities you need in a safe and attractive package.

You can't beat our location along the TransCanada highway, just 30 minutes east of Brandon and 20 minutes north of the beautiful Spruce Woods Provincial Park. Our central location makes for an easy commute to other centres including Winnipeg, Portage la Prairie, Neepawa and Shilo.

Although Carberry has a small-town feeling, we have all the amenities you need. The Carberry Child Care Co-op offers licensed child care and nursery school programs and our elementary and high school are home to students from kindergarten to grade 12. The Carberry Health Centre houses a number of health services including ten acute care hospital rooms, emergency services, diagnostic services, an attached personal care home and the Carberry Clinic with two doctors and a nurse practitioner onsite. Core businesses include two grocery stores, two gas stations, a hardware store, restaurants, mechanics, banking facilities and much more.

Recreational facilities and programs provide opportunities for all ages and interests. The Carberry Plains Community Centre is truly the hub of our community, and houses a hockey/skating rink, curling rink, bowling alley, outdoor pool, outdoor rink, skate park and shooting range. The town also provides a number of parks, green spaces and walking paths to explore. Outdoor enthusiasts will find plenty to explore and our surrounding sandhills are a unique landscape you will not find anywhere else in Manitoba. From the numerous hiking and cross country ski trails at the neighbouring Spruce Woods Provincial Park to ATV and snowmobile trails, there is something to enjoy in every season.

Carberry is also a gem for history enthusiasts with our heritage buildings, unique architecture, Carberry Museum and Gingerbread House, Seton Centre and neighbouring Camp Hughes historical site.

Newcomers have numerous housing options from building a home to your specifications in one of our new development areas, purchasing a modern or heritage home in our established neighbourhoods, numerous rental options and seniors housing ranging from independent living to assisted housing with health care services onsite.

*"So many amazing people make this an incredible community to raise your kids, work and retire! I wasn't born here but I feel just as welcomed as though I was."*

## Utilities

### Water and Sewer

The Town of Carberry is located on an aquifer which yields an excellent supply of fresh water fit for human consumption. Residents obtain water from individual private wells, and therefore do not require any water hook-ups from the Town upon moving in and do not receive monthly water and sewer bills. Cost of sewer service is included with annual property taxes.

We do recommend testing your water annually for coliforms and e. coli. Early spring after snow melt is a good time to test. The Town office can provide you with sample bottles and instructions for having your drinking water tested.

### Waste Disposal Tips

#### Do not flush anything but toilet paper

*Even though a product may be small enough to flush, doesn't mean it should be. Flushing items that are not meant to be flushed, including those labelled "flushable" can lead to problems in the sewer system. Do not flush tissues, paper towel, feminine hygiene products, baby wipes, medication or trash of any kind.*

#### Disposing of Cooking Oil

*Do not pour cooking oil down the drain. This clogs our pipes and sewer system. Instead, simply pour it into a disposable container, wait for it to cool and throw it in the trash!*

## History

Between 1878 and 1890, thousands of settlers from the East moved to take up the 160-acre homesteads offered by the government of John A MacDonald to settle the Big Plains. Their wives and children began to arrive in 1879, and the farming district of the Carberry Plains was born, whose outlines coincide almost exactly with the boundaries of the Rural Municipality of North Cypress, an area of 278,000 acres. Many of the farmsteads around Carberry today bear the names of the settlers who arrived in 1878.

The town of Carberry owes its origin to the Canadian Pacific Railway (CPR), as well as to the RM's enterprising settlers. In 1882, the CPR established a station at De Winton, a small town-site about 1 1/2 miles east of the town's present site. Several of the railway's officials quietly purchased much of De Winton's town-site property, hoping for great profit as the town grew. Such speculation was strictly against the Railway's company rules, however, and on discovering the violation, the Railway Company, using 100 specially-hired men, in one night physically moved the new station to the present site of the town of Carberry!

Carberry was named after Carberry Tower in Musselburgh, Scotland (belonging to Lord Elphinstone, a director of the CPR) by James J. Hill, another CPR director and later President of the Great Northern Railway.

For example, milk cartons, glass food and beverage containers, plastic bottle, juice boxes, margarine containers, aluminum cans, cardboard, newspapers, cereal boxes, steel food containers and more.
